

**Shuswap Community Foundation Vital Signs
Issue Areas and Context Statements
Prepared by Rob Hood, PhD**

The following includes “issue areas” and statements for indicators within each issue area of the Vital Signs project. These statements are referred to as “context statements” given that they include the “context” for which the data is relevant (e.g. Salmon Arm census agglomeration which is essentially Salmon Arm Municipality).

The issue areas are ordered as provided by Community Foundations Canada (CFC) and not the same as in the 16 page Shuswap Community Foundation Vital Signs Report 2014. Also, the Shuswap Community Foundation Report included selected statements from this larger assembly of statements presented here. It was unreasonable to include all of these indicators and/or statements in the 16 page Report. This larger assembly of indicators and statements may be of interest to community members seeking more detail on indicators provided by Community Foundation Canada (CFC).

Data are colour coded to represent the three rounds of data availability from CFC---black=round1, red=round2 and green=round3.

GAP BETWEEN RICH AND POOR

I-2-a: Overall Poverty Rate for All Persons Based on LIM, After Tax (NHS 2010)

In 2010, the after-tax LIM overall poverty rate in Salmon Arm (CA) was 14.9%, equal to the national rate and 9.1% below the provincial rate (16.4%).

I-2-c: Overall Poverty Rate Based on the Low Income Measure (LIM), After-Tax

In 2012, the overall poverty rate in Salmon Arm (CA), based on the Low Income Measure (LIM), an indicator of relative poverty, was 14.8%, up 1.5% points from 13.3% in 2008, and up 1.2% points from 13.6% in 2011. The 2012 figure was 12.9% below the national average (17.0%), and 20.4% below the provincial average (18.6%).

I-3-a: Child Poverty Rate, Based on LIM, After Tax (NHS 2010)

In 2010, the after-tax child poverty rate in Salmon Arm (CA) was 20.7%, 19.7% above the national rate (17.3%) and 8.4% above the provincial rate (19.1%).

I-3-c: Child Poverty Rate Based on the Low Income Measure (LIM), After-Tax

In 2012, the child poverty rate in Salmon Arm (CA), based on the LIM, was 18.8%, down 0.3% points from 19.1% in 2008, and down 1.7% points from 20.5% in 2011. The 2012 figure was 1.4% below the national average (19.1%), and 8.6% below the provincial average (20.6%).

I-4-a: Incidence of Poverty for the Elderly Based on LIM, After Tax (NHS 2010)

In 2010, the after-tax elderly poverty rate in Salmon Arm (CA) was 17.3%, 29.1% above the national rate (13.4%) and 24.5% above the provincial rate (13.9%).

I-4-c: Elderly (65+) Poverty Rate Based on the Low Income Measure (LIM), After-Tax

In 2012, the elderly poverty rate in Salmon Arm (CA), based on the LIM, was 2.1%, down 1.2% points from 3.3% in 2008, and down 0.6% points from 2.7% in 2011. The 2012 figure was 63.8% below the national average (5.8%), and 65.6% below the provincial average (6.1%).

I-6: Proportion of Economic Families in Income Brackets

In 2010, 4.6% of economic families in Salmon Arm (CA) had an annual income of less than \$20,000 (2010 dollars), compared to 6.0% in Canada and 7.2% in British Columbia. The proportion of families with annual incomes of over \$100,000 in 2010 was 24.6%, compared to 34.1% in Canada and 33.5% in British Columbia.

I-7-a-i: Median Income of Single Parent Families (Tax Data), Before-Tax

In 2012 in Salmon Arm (CA), the median before-tax income of single parent families (based on tax data) in current dollars was \$35,650, up 5.6% from \$33,760 in 2011, and up 5.3% from \$33,850 in 2008. The 2012 level was 9.4% below the national level (\$39,350), and 4.7% below the provincial level (\$37,420).

I-7-a-ii: Median Income of Single Parent Families (Tax Data), After-Tax

In 2012 in Salmon Arm (CA), the median after-tax income of single parent families (based on tax data) in current dollars was \$34,420, up 4.1% from \$33,060 in 2011, and up 4.9% from \$32,820 in 2008. The 2012 level was 8.9% below the national level (\$37,760), and 5.0% below the provincial level (\$36,250).

I-7-b: Median Income of Single-Parent Families NHS 2010 (Current Dollars)

In Salmon Arm (CA) in 2010, the median income of single parent families was \$35,163. This is 22.1% below the national median (\$45,163) and 17.5% below the provincial median (\$42,610).

I-8-a: Poverty Rate of Single-Parent Families Based on LIM, After Tax (NHS 2010)

In 2010, the poverty rate of single-parent families in Salmon Arm (CA) was 48.8%, 57.9% above the national rate (30.9%) and 45.2% above the provincial rate (33.6%).

I-8-c: Poverty Rate of Single-Parent Families Based on the Low Income Measure (LIM), After-Tax

In 2012, the poverty rate of single-parent families in Salmon Arm (CA), based on the LIM, was 34.6 %, down 2.4% points from 37.0% in 2008, and down 2.9% points from 37.5% in 2011. The 2012 figure was 7.5% higher than the national average (32.2%), and 0.2% lower than the provincial average (34.7%).

SAFETY

II-1: Total Violent Criminal Code Violations Per 100,000 People

At 1,376 per 100,000 persons in 2013, the violent crime rate in Salmon Arm (Municipal) was 26.0% above the national average (1,092 per 100,000) and 9.1% above the provincial average (1,262 per 100,000). The rate decreased 2.6% from 1,413 per 100,000 in 2012 and decreased 10.4% from 1,536 per 100,000 in 1998.

II-2: Total Property Crime Violations Per 100,000 People

At 3,614 per 100,000 persons in 2013, the property crime rate in Salmon Arm (Municipal) was 14.9% above the national average (3,146 per 100,000) and 20.9% below the provincial average (4,568 per 100,000). The rate decreased 13.6% from 4,183 per 100,000 in 2012, and decreased 53.1% from 7,705 per 100,000 in 1998.

II-3: Criminal Code Traffic Violations per 100,000 People

At 394 per 100,000 persons in 2013, the traffic crime rate in Salmon Arm (Municipal) was 1.6% above the national average (388 per 100,000) and 3.1% above the provincial average (382 per 100,000). The rate decreased 19.6% from 490 per 100,000 in 2012 and increased 26.7% from 311 per 100,000 in 1998.

II-4: Police Officers per 100,000

At 112 police officers per 100,000 in 2013, the number of police officers in the city of Salmon Arm was 43.4% lower than the national average (197) and 42.3% lower than the provincial average (193). The rate was up 5.7% from 106 in 2012.

II-6: Motor Vehicle Theft Rate

At 263 per 100,000 persons in 2013, the motor vehicle theft rate in Salmon Arm (Municipal) was 26.8% above the national average (207 per 100,000) and 3.9% above the provincial average (253 per 100,000). The rate increased 48.7% from 177 per 100,000 in 2012 and decreased 18.9% from 324 per 100,000 in 1998.

II-8i: Overall Crime Severity Index

At 66.5 in 2013, the Overall Crime Severity Index in Salmon Arm (Municipal) was 3.3% below the national figure (68.7) and 25.5% below the provincial figure (89.2). The level decreased 11.8% from 75.4 in 2012 and decreased 45.3% from 121.5 in 1998.

II-8ii: Violent Crime Severity Index

At 57.9 in 2013, the Violent Crime Severity Index in Salmon Arm (Municipal) was 21.5% below the national figure (73.7) and 29.0% below the provincial figure (81.5). The level increased 0.2% from 57.8 in 2012 and increased 24.6% from 46.5 in 1998.

II-8-iii: Non-Violent Crime Severity Index

At 69.5 in 2013, the Non-Violent Crime Severity Index in Salmon Arm (municipal) was 4.0% above the national figure (66.8) and 24.3% below the provincial figure (91.8). The level decreased 14.9% from 81.6 in 2012.

II-9: Total Sexual Assaults per 100,000 People

At 62.8 per 100,000 persons in 2013, the sexual assault rate in Salmon Arm (municipal) was 3.6% above the national average (60.6 per 100,000), and 12.7% above the provincial average (55.7 per 100,000). The rate increased 57.4% from 39.9 per 100,000 in 2012, and decreased 10.1% from 69.8 per 100,000 in 1998.

II-10: Overall Crime Per 100,000 Population

At 8,199 per 100,000 persons in 2013, the overall crime rate in Salmon Arm (municipal) was 37.4% above the national average (5,968 per 100,000), and 4.6% below the provincial average (8,593 per 100,000). The rate decreased 8.8% from 8,992 per 100,000 in 2012, and decreased 30.5% from 11,793 in 1998.

HEALTH

III-1: Low Birth Weight Babies

The proportion of newborn babies who were of low birth weight in the Thompson/Cariboo HSDA was 6.6% in 2012-2013, up 0.6% points from 6% in 2001-2002. The 2012-2013 rate was 6.5% above the Canada-wide rate (6.2%) and 11.9% above the provincial rate (5.9%).

III-2: Total Physicians per 100,000 People

In 2012 in Thompson/Cariboo (HSDA) there were 178 physicians per 100,000 people. This rate is 16.8% lower than the national rate (214 physicians per 100,000 people) and was an increase of 22.8% from 145 physicians per 100,000 people in 2002.

Table III-3: Obesity Rates (%) of the Population 18 and Over

In 2013, the obesity rate for the population aged 18 and over in the Thompson/Cariboo HSDA (includes Shuswap) was 14.5%, 22.9% below the national average of 18.8%, and 3.3% below the provincial average of 15.0%. The rate was up 6.6% from 13.6% in 2012.

III-4: Life Expectancy at Birth

On a 3 year average between 2007 and 2009, the Thompson/Cariboo (HSDA) had a life expectancy of 79.6 years, 1.8% lower than the Canada average (81.1 years). Life expectancy in the Thompson/Cariboo (HSDA) has increased by 2.0 years from 77.6 years in 1997.

III-5: Smoking Rates

In 2013, the proportion of the population aged 12 and over identifying as current smokers in Thompson/Cariboo HSDA (includes Shuswap) was 22.2%, 15.0% above the national average of 19.3%, and 37.0% above the provincial average of 16.2%. The rate was up 2.3% points from 19.9% in 2003.

III-6: Leisure-Time Spent Physically Active or Moderately Active

In 2013, 62.1% of the population aged 12 and over in the Thompson Cariboo HSDA (includes Shuswap) reported being physically active or moderately active during leisure time. This represented an increase of 1.1% points from 61.0% in 2003. The 2013 level was 12.5% above the national level of 55.2%, and 3.0% below the provincial level of 64.0%.

III-7: Self-rated Mental Health

In 2013, 68.7% of respondents in the Thompson/Cariboo HSDA (includes Shuswap) rated their mental health status as “excellent” or “very good.” This represented a decrease of 5.5% points from 74.2% in 2003. The 2013 level was 3.4% below the national rate (71.1%), and 2.4% above the provincial rate (67.1%).

III-7: Self-rated Mental Health

In 2013, 88.7% of respondents in the Thompson/Cariboo HSDA (includes Shuswap) aged 12-19 rated their mental health status as “excellent” or “very good.” This represented an increase of 17.2% points from 71.5% in 2003. The 2013 level was 17.6% above the national rate (75.4%), and 28.6% above the provincial rate (69.0%).

III-8: Work Absence

In Lower Thompson-Okanagan (ER), which includes Salmon Arm, full-time workers were absent from work an average of 11.8 days in 2012 (excluding days spent on maternity leave), up 37.2% from 8.6 days in 1997. By comparison, the average number of days absent in 2012 was 10.0 days provincially and 9.3 days nationally.

Table III-9: Proportion of the Population 12 years and over without a Regular Medical Doctor

In 2013, 15.3% of the population aged 12 and over in the Thompson/Cariboo HSDA (includes Shuswap) did not have a regular medical doctor, up 5.7% points from 9.6% in 2003. The 2013 rate was 1.3% lower than both the national and provincial rates (15.5%).

III-10: Perceived Life Stress

In 2013, 13.0% of the population aged 15 and over in the Thompson/Cariboo HSDA, which includes Shuswap, reported experiencing quite a lot of stress on most days. This represented a decrease of 8.6% points from 21.6% in 2003. The 2013 level is 9.1% points below the provincial level of 22.1% and 10.0% points below the national level of 23.0%.

III-11: Household Food Security Status in Vital Signs Communities

In 2011, the proportion of households in Thompson Cariboo (HSDA) that were moderately food insecure was 8.1%. This was a rate 2.4% points above the national rate of 5.7% and 2.9% point above the provincial rate of 5.2%.

Table III-12: Heavy Drinking

In 2013 in Thompson/Cariboo HSDA, which includes Shuswap, 19.0% of the population (aged 12 and over) consumed 5 or more drinks on one occasion at least once a month in that last year. This rate reflects an increase of 1.1% points from its 2012 rate (17.9%). The 2013 rate is 0.1% points above the national rate (18.9%) and 1.6% points above the provincial rate (17.4%).

Table III-14: Diabetes Rate

In 2013 in Thompson/Cariboo HSDA, which includes Shuswap, 5.6% of the population (12 years and over) had diabetes. This rate reflects an increase of 0.8% points from its 2012 rate (4.8%). The 2013 rate is 1.0% points below the national rate (6.6%) and 0.1% points above the provincial rate (5.5%).

Table III-15:% of the Population (12 years and over) With Influenza Immunizations Within the Past Year

In 2013 in Thompson/Cariboo HSDA, which includes Shuswap, 34.1% of the population (12 years and over) had received an influenza immunization within the past year. This reflects an increase of 5.7% points from its 2012 rate (28.4%). The 2013 rate is 4.8% points above the national rate (29.3%) and 3.6% points above the provincial rate (30.5%).

Table III-16-a:% of the Population (12 years and over) Not Eating Recommended Fruits and Vegetables

In 2013 in Thompson/Cariboo HSDA, which includes Shuswap, 56.9% of the population (12 years and over) did not eat fruits and/or vegetables at least 5 times per day. This reflects an increase of 3.8% points from its 2012 rate (53.1%). The 2013 rate is 2.3% points below the national rate (59.2%) and 2.4% points below the provincial rate (59.3%).

Table III-16-b:% of Seniors (65 and Over) Not Eating Recommended Fruits and Vegetables

In 2013 in Thompson/Cariboo HSDA, which includes Shuswap, 52.8% of seniors (65 years and over) did not eat fruits and/or vegetables at least 5 times per day. This reflects an increase of 9.7% points from its 2012 rate (43.1%). The 2013 rate is 5.9% points below the national rate (58.7%) and 4.6% points below the provincial rate (57.4%).

III-17: Self-rated Physical Health

In 2013, 78.2% of respondents in Thompson/Cariboo HSDA, which includes Shuswap, aged 12-19 rated their physical health status as “excellent” or “very good.” This represented an increase of 7.0% points from 71.2% in 2003. The 2013 level was 9.3% points above the national rate (68.9%), and 7.4% points above the provincial rate (70.8%).

LEARNING

IV-1-a: Proportion with Post-Secondary Education

In 2013, 51.9% of the population in Thompson-Okanagan (ER) aged 15 and older had received post-secondary education. This rate was 2.1% points below the national average (54.0%) and 1.6% points below the provincial average (53.5%). The Thompson-Okanagan rate was up 2.5% points from its 2012 rate (49.4%).

IV-1-b: Proportion with Post-Secondary Education (Census Data)

In 2011, Salmon Arm (CA) had a proportion of the population aged 15 and older with a post-secondary education of 49.4%. This rate was 4.9% points below the national average (54.3%) and 6.3% points below the provincial average (55.7%). The Salmon Arm rate was up 0.2% points from its 2006 rate (49.2%).

IV-2-a: Proportion of the Population (15 years and over) that have not Completed High School (Labour Force Survey)

In Thompson-Okanagan (ER which includes Shuswap), 15.6% of the population (15 years and over) in 2013 had not completed high school, down 10.8% points from 26.4% in 2000. The rate was 15.2% lower than the national average (18.4%) and 6.8% higher than the provincial average (14.6%).

IV-2-b: High School Non-Completion Rate (Population Aged 25-64), (National Household Survey, 2011)

In 2011, 9.9% of the population (between the ages of 25 and 64) in Salmon Arm (CA) had not graduated from high school, down 4.2% points from 14.1% in 2006. This was 2.0% below the provincial rate (10.1%) and 22.0% below the national rate (12.7%).

IV-3: Aboriginal High School Completion Rates for Persons Aged 25 to 64

In 2011, 87.9% of the Aboriginal population aged 25 to 64 in Salmon Arm (CA) had at least one certificate, diploma, or degree, an increase of 7.9% points from the 2006 rate of 80.0%. The Salmon Arm (CA) proportion in 2011 was 16.8% points above the national rate of 71.1% and 12.9% points above the British Columbia rate of 75.0%.

HOUSING

V-1: Gross Shelter Income Ratio

In Salmon Arm (CA), the proportion of households spending 30% or more of their income on gross rent was 50.4% in 2010, 10.3% points higher than the national average (40.1%). The proportion of households spending more than 30% of income on owner's major payments on shelter was 18.1%, 0.4% points lower than the national average (18.5%).

V-2-a: Ratio of MLS Average Residential Prices and Median Census Family pre-tax Income

In 2012 in Shuswap, the ratio of the average residential price to the median pre-tax income for a Census family was 5.58, which is 5.3% lower than its 2011 level of 5.90. The 2012 level was 14.4% higher than the national average of 4.88.

V-6: Proportion of Units Requiring Major Repair

In the Salmon Arm CA, 7.0% of dwelling units were in need of major repair in 2011. The Salmon Arm proportion was 2.8% below the British Columbia level (7.2%) and 5.4% below the Canada-wide level (7.4%).

GETTING STARTED – (This issue area was NOT INCLUDED in the 2014 SCF VS Report)

VI-1-a: Migration

In Salmon Arm (CA), 1.9% of the population (315 persons) in 2011 had lived outside the province within the previous year, compared to 1.7% for Canada and 1.2% in British Columbia. In Salmon Arm, 7.2% of the 2011 population lived outside the province within the last 5 years.

VI-9: Leisure-Time Spent Physically Active or Moderately Active, Aged 12-19

In 2013, 83.2% of the population aged 12-19 the Thompson/Cariboo HSDA (includes Shuswap) reported being physically active or moderately active during leisure time. This represented an increase of 19.1% points from 64.1% in 2003. The 2013 level was 16.9% above the national level (71.2%), and 5.2% above the provincial level (79.1%).

VI-2-a: Unemployment Rate of Immigrants and Non-Immigrants

In 2011, the unemployment rate of recent immigrants (i.e. entered the country within the last five years) was 0.0% in Salmon Arm (CA). The rate was down from 13.3% in 2006.

VI-4-a: Youth Unemployment Rate, based on Census

In 2011, the youth (15-24 years old) unemployment rate in Salmon Arm (CA) was 10.2%. This was 38.6% below the national youth unemployment rate of 16.6%, and 36.3% below the provincial average of 16.0%. The youth unemployment rate has increased 1.4% points from 8.8 in 2006.

VI-4-b: Youth Unemployment Rate, based on Labor Force Survey

In 2013, the youth (15-24 years old) unemployment rate in the economic region of Thompson-Okanagan (includes Salmon Arm and Shuswap) was 12.5%. This was 1.2% points below the national youth unemployment rate of 13.7% and 0.4% points below the provincial average (12.9%). The youth unemployment rate has decreased 1.5% points from 14.0% in 2012.

VI-5-a: Languages Spoken Most Often at Home

In 2011, 96.2% of the population in Salmon Arm (CA) spoke English most often at home, a rate that is 32.1% points above the national rate (64.1%) and 16.5% points above the provincial rate (79.7%). In 2011, 0.2% of the population spoke French most often at home, and 0.8% of the population spoke select languages other than French and English (Chinese, Punjabit, Spanish, Arabic, Tagalog, Italian, German, Farsi, or Aboriginal) most often at home.

ARTS AND CULTURE
